The examiner notes the request for an interference filed in this application; however, the claims are not deemed to be allowable at the present time. An interference will not be declared or even looked into until the claims are considered to be allowable over the prior art of record.

1. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:
It does not identify the citizenship of each inventor.

The second and third inventors have no citizenship listed in the Oath. It is assumed that they are a citizen of some country in the world. Correction is required.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 61,62 are rejected under 35 U.S.C. 102(b) as being anticipated by Chatterjee (3932209

Chatterjee discloses an absorbent article and a method of making the article where the article has a layer that allows liquid to pass and a water barrier sheet. This is inherent in sanitary napkins and diapers. See column 1. Chatterjee discloses the claimed method of making. Chatterjee discloses "cold caustic extraction" in column 4, lines 61-68. Chatterjee discloses the treatment at a temperature of less than 60 degrees Celsius, which satisfies the definition set forth by applicant on page 12 of the

Art Unit: 3761

instant specification. See column 5, line 48 where the use of sodium hydroxide is disclosed, which is the same composition that the instant applicant uses. Chatterjee also discloses fluffed pulp my mechanical action as claimed (see column 6, lines 32-33). Chatterjee discloses an amount of fluff pulp that satisfies claim 62.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dennis Ruhl whose telephone number is 703-308-2262. The examiner can normally be reached on Tuesday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Weilun Lo can be reached on 703-308-1957. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9302 for regular communications and 703-872-9303 for After Final communications.
